Boudoir in Paris

*B*oudoir is a place where inhibitions disappear, a place where your allure and sensuality are revealed in elegant and tasteful fine art portraits. Boudoir photography is all about attitude and little to do with your age, figure or clothing. Body language and facial expressions are the key to having a successful, sexy portrait session with a photographer.

Your session can be your home or a private location of your choice. Sessions last up to two or three hours and are customized to meet your wishes- it's your time to let loose and have fun. Before your shoot, relax in a setting dimly lit by candles, while enjoying a glass of wine.

All sessions are personalized to your wishes. Boudoir means different things to different people and can range from being fully clothed to semi-nude to nudes. Our goal is to create a comfortable environment for you to express yourself the way you want, where intimate and tasteful photographs capture your true beauty.

*W*e provide you with a DVD high definition of the selected photographs, color corrected and ready to print. The number of the photographs depends on the package you choose. Our fee do not cover the cost of hair & make up, stylist, the hotel suite, nor prints. You can bring your own makeup or stop by your usual hairdressing salon the morning of the shooting.

The various packages are described below:

- **Classic : 580 €** (4-hour shoot including 350 shots)
- **Light : 450€** (2-hour shoot including 200 shots)

*Cost of **retouching**: 50€ per photo.*

Would you wish to have professional assistance to prepare for the shooting, we work with a team of professional hair stylist, makeup artist and wardrobe stylist to assist you during the session.

Using the services of a professional stylist is a particularly interesting option for clients looking for a high quality end product, as it emphasizes the beauty of the model by using sumptuous luxurious outfits. We do travel outside of Paris for a photo session.
